

John Åkerberg

UX / Product Designer · Gothenburg, Sweden

john94akerberg@gmail.com

UX / Product Designer with a diverse background in animal care, retail and logistics. I have experience driving UX work from research to launched product, both in projects with direct user access and in projects where I've had to ground design decisions in other ways. I do my best work combining problem-solving with creativity.

Experience

UX / Product Designer (Internship)

Spring 2026

Sensapp

- Redesigned Bubblan's interface and led UX work on its companion app, focused on WCAG and senior-friendly design without direct user access.
- Ran a full Design Thinking process for Digital Care: interviews, an HTML prototype, and usability tests that resulted in a requirements specification.
- Contributed to product documentation, contact databases, newsletters, and communication alongside core UX work.

UX / Product Designer (Internship)

2025

Digalog / Digital Dimension Sverige AB

- Took the app design for the IRIS safety watch and companion app from lo-fi wireframes to a launched app in the App Store and Google Play.
- Built a design system with a component library and style guide, and reworked the watch's interface from Chinese to Swedish.
- Produced onboarding flows and physical manuals, and took part in pilot tests with seniors in Vingåker.

Retail Sales Associate

Periodically, 2019-present

Circle K, Munkebäck / Mölnlycke / Uppsala

- Customer service, cashier duties, stock replenishment, and store opening/closing.
- Trained new employees.

Padel Coach

2021-2022

Padelson Academy

- Ran group and private lessons for beginner and intermediate players, focused on technique, strategy, and enjoyment of the game.

Warehouse Worker / Forklift Driver

2021-2022

Baby World, Uppsala

- Order picking, loading/unloading, and internal logistics. Operated forklifts (License A).

Institution Technician (formerly Animal Technician)

Periodically 2014-2021, summer 2026

Göteborgs universitet

- Daily care, health checks, and documentation for laboratory animals.
- Introduced new staff and researchers to procedures and safety standards.

Education

UX Design (Higher Vocational Education)

2024-2026

IT-Högskolan Göteborg

- Thesis: "Designing for the one you can't reach," a study on user-centered design within welfare technology.

Veterinary Medicine

2018-2019

Sveriges lantbruksuniversitet

Upper Secondary School

Graduated 2013

August Kobbes Gymnasium
